## New, unique residential-commercial complex will adorn Jahorina centre

July 6, 2022 / Nataša Nešić

*In the very centre of Jahorina, next to the main ski run and Poljice lift, SKY HILL JAHORINA is being built, a unique and completely authentic residential & commercial complex*

This prestigious location will get a new gem of authentic design, by renowned architect Dupan Tešić and co-author Dušanka Vučenović, and help give a new dimension to the centre of Jahorina, akin to the most popular destinations in the world.

The building's reflective glass, which will reflect both the attractive centre and the mountain landscape, highlights the beauty of nature and adds to the experience during both the winter and summer seasons.

In addition to all the content on Jahorina in the vicinity, top quality finishes and equipment, the 24/7 reception desk with security and maintenance service, as well as a ski room, are additional benefits for everyone who wants a perfect vacation or a chance to invest.

Renting apartments is offered as a special service for owners at the reception desk in the building itself.

Total surface area of the future complex is 13,300 m<sup>2</sup> gross.

The complex will feature different apartment structures, from studios to family apartments, ranging from 24.5 m<sup>2</sup> to 73 m<sup>2</sup> and commercial space.

Presale of apartments and commercial space begins on July 6, 2022.

Exclusive sale of flats is entrusted to the leading real estate consulting company in Serbia, CBS International, part of Cushman & Wakefield Group.

Investor: CONSTRUCT INVEST (part of MOJ KIOSK GROUP).
