## We need an office space following our corporate ESG standards.

In a collaborative effort, we played a key role in assisting the esteemed insurance company Generali Serbia in finding office space in Belgrade, totalling an impressive almost 8,000 square meters. Generali, a globally renowned insurance giant, was seeking a strategic location for its operations in Belgrade. The challenge was to identify the property following the Generali Group's corporate ESG standards as sustainability is their long-term journey, therefore the premises needed to fulfil the requirements related to the usage of renewable energy and efficiency of the space. The chosen office complex Forum 26 met the requirements, providing a seamless blend of functionality, accessibility, sustainability and aesthetic appeal.

# **BOSCH**

## **Bosch Serbia HQ**

## of 7,500 sq m in the biggest business park Airport City Belgrade

The office space interior was designed in line with the highest corporate standards and guidelines, in order to support a hybrid working model.

Our Brokerage team secured the office space, while our Design and Project Management team was involved from the moment of location selection, and has been actively engaged in the organization and improvement of the interior in the last several years, to adapt the premises to the future needs and growth of the company.

In less than 3 years, the number of employees in Bosch HQ has increased from 600 to almost 1,000, and the main indicator of the project's success is that the office space, which remained the same in size, can more than effectively support the constant growth of the number of employees and preserve the functional and comfortable working environment.
